

National Wetlands Restoration Symposium 2012

Invercargill 21-23 March 2012

Call for Abstracts: Oral presentations

Theme: Wetlands - Are We Getting it Right?

- **Effective Community Engagement**
Tools, techniques and learning for getting people interested and involved with wetlands and communicating effectively.
- **Regulatory vs. non Regulatory Approaches**
Rules, regulations, incentives, and other approaches that have worked (or not) to protect wetland values.
- **Communicating Science to the Public**
How we share, communicate and engage people with scientific learning.
- **Integrated Management of Wetlands for Ecosystem Outcomes**
Integrated management, what works and why, what are good ecosystem outcomes, how do we monitor these effectively?

Send abstracts to:
